

GoofProof™

Wall Trimmer

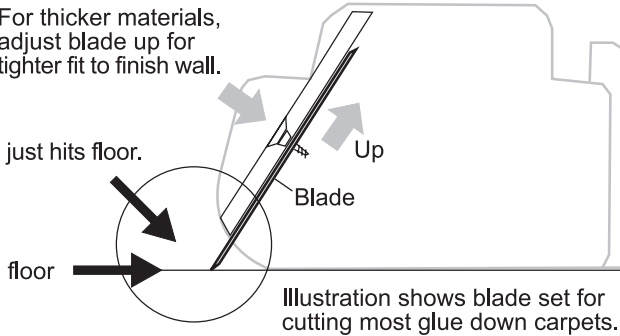

A most accurate and easy method of trimming direct glue-down carpet and carpet tiles.

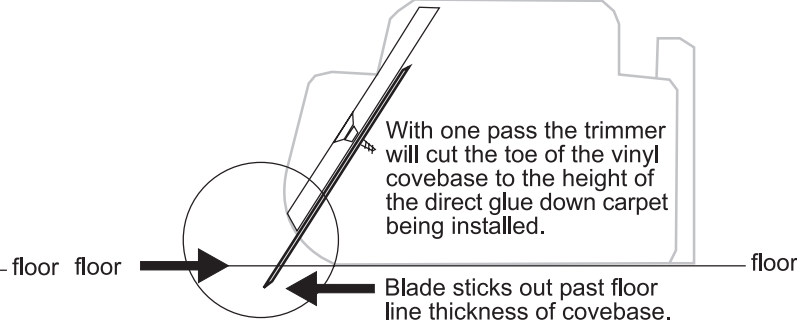

- Trims soft sheetgoods easily
- Uses standard slotted blades
- Patented design feels like an extension of your hand
- Use with left or right hand

For thicker materials, adjust blade up for tighter fit to finish wall.

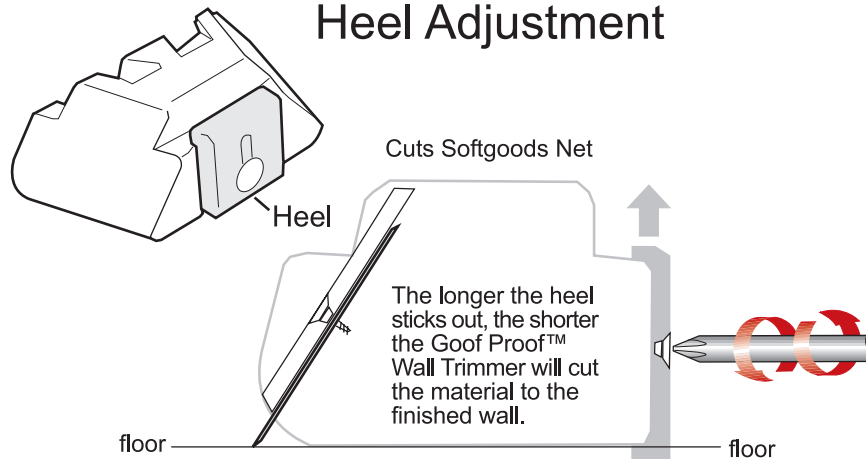

Blade just hits floor.

Cut carpet and covebase in one pass.

Heel Adjustment

The low profiles are the advantage. It will ride flat, even on thick carpets without swaying from side to side. The blade under the pusher handle makes it easier to hold so that the trimmer does not veer away from the wall.

The bottom of the trimmer is fully saturated with a non-staining lubricant for easy glide.

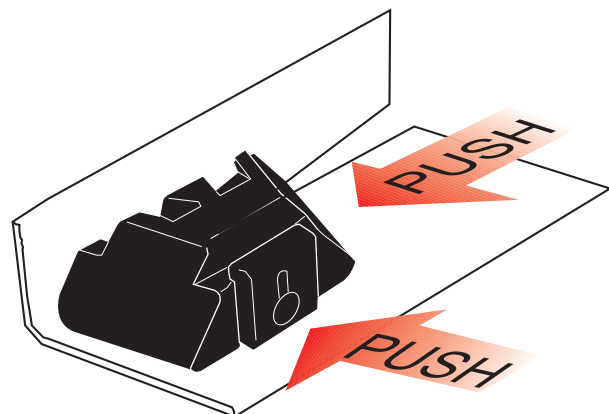

Illustration shows right hand cutting position.
